- Related coursework: Nutrition Science, Food Safety

SKILLS & ABILITIES

Management

- As a Sous Chef I was responsible for maintaining order and discipline in the kitchen over a small team of chefs while consistently upholding a high quality of food.
- Managed a team of 4 to keep up daily food preparations and inventory while also managing incoming orders in a timely manner.

Training

- Thoroughly learned the back of the house autonomously in the absence of the head chef
- Responsible for teaching new hires the pace of the kitchen and the quality expected from the head chef.
- Teach food preparation, a high standard of cleanliness and overall work ethic required for the fast pace environment of a professional kitchen.

Customer Service

- Work closely with clients preparing menus, budgets and logistics for off-site catered events
- Lead off site catering teams in food preparation, transportation, serving and teardown
- Maintained high standards of customer service during high-volume, fast paced operations
- Kept great customer relations as a cashier with regular customers and aided new customers in best experiencing our menu during my time at Mike's Grill

EXPERIENCE

[californiafirefront.com](#)

April 28, 2016 -

Present

A Mobile First Web Application designed to help Cal Fire firefighters communicate about the wildland fires across the state of California

Built with PHP and MySQL

Began the project April 28, 2017, launched May 5, 2017, and currently tweeking, adding, and fixing whatever comes up.

Currently waiting to grow the community of the app before adding a store that allows firefighters to have a one-stop-shop for discounted gear, apparel, and anything else we can find!

PERSONAL INTERESTS

I love to work with logic to solve problems so programming is right up my alley. Being able to use the tools available to solve problems and manifest ideas is something that I truly enjoy and hope my abilities can help to create some innovative projects.
